PROFILE

BS Computer Science student with strong analytical and communication skills, experienced in translating complex technical concepts into clear, user-friendly documentation. Passionate about creating structured, impactful content that supports cross-functional teams and enhances organizational efficiency. Eager to contribute technical insight and problem-solving skills in a dynamic corporate environment.

ACADEMIC BACKGROUND

FAST National University of Computer & Emerging Sciences | 2023-2027

Bachelors of Science in Computer Science

The CITY School RAVI | 2021-2023

A-Levels

- Mathematics
- Computer Science
- Physics

Lecole Mondiale | 2019-2021

O-Levels

- Core Computer Science Group

TECHNICAL SKILLS

- Programming:** C++, Python (problem-solving & automation basics) **3+ years experience**
- Web Development (MERN):** Strong experience with HTML, CSS, and React.js, developing responsive and scalable web interfaces with reusable components and API integration.
- Database Management:** Built and managed backend databases (PostgreSQL, MySQL, MSSQL) for web applications, with focus on efficient schema design, query optimization, and data integrity.
- UI/UX Design Project (HCI + Figma):** Designed user-centric interfaces in Figma, creating wireframes and interactive prototypes with a focus on applying **Human Computer Interaction Fundamentals**.
- Digital Marketing & Ad Management:** Social media marketing, campaign structuring, basic Meta/Google Ads understanding
- Soft Skills:** Problem-solving, communication, teamwork, analytical thinking.

PROJECTS

LostPet – MERN Stack Web Application (Lost & Found Pets Platform) — 2026

petlost.vercel.app

- Built a full-stack platform using the MERN stack to report, search, and manage lost and found pets.
- Implemented adoption workflows and NGO donation features to support animal welfare and community assistance.
- Developed secure RESTful APIs with authentication and CRUD operations, along with a responsive UI.
- Deployed and hosted on Vercel for scalable and reliable performance.

Applied Human Computer Interaction Projects — 2026 UI/UX [HalalScan-Prototypes](#)

[QueueFree-Prototypes](#)

- Designed wireframes and interactive mobile app prototypes in **Figma** for **HalalScan**, a halal product verification application & **QueueFree**. Applied Human-Computer Interaction (HCI) principles to create an intuitive and user-friendly interface. Focused on screen flow, usability, and consistent UI design to improve the overall user experience.

Bank Website & Database Project — 2025

- Developed a secure **MERN**-stack banking portal using a transactional database for reliable account management and fund transfers, alongside creating comprehensive technical documentation and a user guide.

EXTRA-CURRICULAR ACTIVITIES

Head Marketing at FAST— Career Connect Society — 2026

Head of Gaming at Ravi Ravera — 2022

Head of Registrations at Ravi Sports Fest — 2021
